

Payment Terminals Price List

of the ComGate Payments, a.s. valid from September 1., 2021.

We run terminals for establishments in the Czech Republic.

A POS payment terminal is a device that is used for payments by VISA, Mastercard, electronic meal voucher card or the Google Pay and Apple Pay applications.

To determine the basic rate, the monthly fee and other fees, the volumes of transactions at payment terminals and at the payment gateway are added together.

Basic rate	Monthly Transaction Volume		
	up to 4K EUR	from 4 to 12K EUR	over 12K EUR
Consumer cards VISA and Mastercard issued in the EU	0,99 % + 0 EUR	0,89 % + 0 EUR	0,79 % + 0 EUR

The transaction fee is being deducted continuously from each payment. During the month, the basic rate is 0,99 %. If the sum of the transactions volumes at the Payment Gateway and Terminals exceeds 4K EUR / month, the client is granted a lower percentage rate bonus.

For the purposes of this tariff, VISA and Mastercard consumer cards issued in the EU are exclusively a payment cards that are subject to EU regulation - Regulation 2015/751 of the European Parliament and of the Council on interchange fees for card payment transactions. These cards include all the usual debit and credit cards issued to citizens in the Czech Republic and other EU countries. This group does not include, for example, meal voucher cards, prepaid payment cards, payment cards issued to entrepreneurs and companies.

Lease of the Payment Terminal	Monthly Transaction Volume		
	up to 4K EUR	from 4 to 12K EUR	over 12K EUR
Monthly fee	10 EUR	6 EUR	0 EUR

To calculate the Payment Terminals' lease price, the volumes of transactions at payment terminals and the payment gateway are summed up. For more than one Payment Terminal, the lease price is calculated by dividing the total volume of transactions at the gateway by the number of leased payment terminals. The resulting value determines the rental fee for each payment terminal.
